**A LONG TIME AGO, IN A WORKSHOP FAR, FAR
AWAY....**

5 WEEKS WEEK BY WEEK

Plo Koon – the Kel Dor Jedi Master, the one in the breathing mask and goggles. Brown Jedi robes, the distinctive antiox mask + protective goggles, and a blue blade.

Steady wins. May the Force be with you.

5 WEEKS TO PLO KOON

Week 1	Plan + order robe, mask print, goggles, blue saber	.
Week 2	Print + finish the antiox mask + goggles	.
Week 3	Fit the Jedi layers + tabards	.
Week 4	Add clawed gloves + boots + saber clip	.
Week 5	Dress rehearsal + game day	.
APPENDIX	Quick reference & game day	.

🕒 YOUR FIRST WEEKS — WHERE MOST BUILDS DIE

Nearly every abandoned build dies in the first quarter: parts not ordered, printer not tested, nothing started. Win the first weeks — order everything, print one test piece — and the rest is downhill.

PICK YOUR BAR

*Same Kel Dor Jedi Master, three ways — the difference is all in the mask. The same build can be finished to three different bars — pick yours **now**, because builders who polish for the wrong one burn weeks.*

LEAN · €90-140

Casual

Reads as Plo Koon at 5m once the brown robe and a rough antiox mask are on. Run thrift-store Jedi layers and a craft-foam or resin-kit mask with cheap tinted goggles; skip the sculpted face contours and saber clip detail — the silhouette and the mask sell it from across a room.

EFFORT · ~14 hrs

MID · €150-220

Convention

Reads as Plo Koon at conversation distance where most builders land. Tunic, tabards, and obi in proper Jedi browns over a well-fitted antiox mask with smoked goggle lenses and the corrugated breathing texture; add the wrapped grey-brown gloves and a lit blue blade so the Kel Dor details hold up in photos.

EFFORT · ~24 hrs

REBEL LEGION · €260+

Approved

Reads as Plo Koon under inspection and clears Rebel Legion standards. Demands a screen-accurate sculpted antiox mask with crisp goggle frames and ridge detail, correct rust-brown layered robes with the full tabard drape, hand-finished gloves to the wrist, and a hero-grade hilt — the mask geometry is judged hardest, so get the goggle spacing and snout exactly right.

EFFORT · ~35 hrs

THE FALLBACK PLAN

*A first-time build of this suit is **18–35 hrs** of hands-on work across **5 weeks**. Life happens — so decide right now what gets cut when the clock wins. Finished beats perfect.*

BEHIND EARLY Drop first: No Armour. Nobody will notice at 5m.

BEHIND LATE Simplify next: Tabard Drape, Reference & Fit, Trousers, Boots — buy instead of make, or borrow.

EMERGENCY Every printed part has a buy option. Switching one part to bought can save a whole week.

ALWAYS The final week is for wearing it, not building it — dress rehearsal beats one more coat of paint.

🕒 THE HONEST RULE

If a piece is not started two weeks before the event, it is not in this year's costume. Build it for the next one.
