**A LONG TIME AGO, IN A WORKSHOP FAR, FAR
AWAY....**

6 WEEKS WEEK BY WEEK

Qimir – the Stranger from The Acolyte. A menacing cortosis helmet with its grille of exposed metal teeth and narrow eye slit, dark layered robes, and a red blade. One of the most striking modern Sith designs.

Steady wins. May the Force be with you.

6 WEEKS TO QIMIR

Weeks 6-5	Plan + order filament, dark fabric, red saber	.
Weeks 4-3	Print + PERFECTLY smooth the helmet – gloss black	.
Week 2	Sew the dark layered robes + hooded cloak	.
Week 1.5	Belt + saber + hidden vision strip in the helmet	.
Week 1	Dress rehearsal + game day	.
APPENDIX	Quick reference & game day	.

🕒 YOUR FIRST WEEKS — WHERE MOST BUILDS DIE

Nearly every abandoned build dies in the first quarter: parts not ordered, printer not tested, nothing started. Win the first weeks — order everything, print one test piece — and the rest is downhill.

PICK YOUR BAR

*Same Stranger, three depths of menace — from a hooded shadow to a cortosis nightmare under the lights. The same build can be finished to three different bars — pick yours **now**, because builders who polish for the wrong one burn weeks.*

LEAN · €110-160

Casual

Reads as Qimir at 5m in a dim hall: layered black robes, a deep hood, and a red blade do most of the work. Skip the cortosis helmet entirely and let the hood hide your face, or fake the look with a cheap masked base — nobody clocks the teeth grille from across the room.

EFFORT · ~25 hrs

MID · €180-260

Convention

Reads as Qimir at conversation distance: a real built-up helmet with a recognizable eye slit and metal-toothed grille, properly layered tunic, belt with clip, and a weighty hooded cloak. Most builders land here — a foam-and-resin helmet and matte dark fabrics sell the Stranger without machining real cortosis plate.

EFFORT · ~40 hrs

501ST · €320+

Approved

Reads as Qimir under inspection: a screen-accurate cortosis helmet with crisp exposed teeth, correct grille spacing and weathered raw-metal finish, every robe panel and shoulder drape matched to reference, and a hilt that holds up close. 501st Legion approval demands the helmet silhouette and battle-worn metallurgy be dead-on — this is the lifetime piece.

EFFORT · ~50 hrs

THE FALLBACK PLAN

*A first-time build of this suit is **25–50 hrs** of hands-on work across **6 weeks**. Life happens — so decide right now what gets cut when the clock wins. Finished beats perfect.*

BEHIND EARLY Drop first: No Armour. Nobody will notice at 5m.

BEHIND LATE Simplify next: Lower Robe Panels, Reference & Fit, Trousers, Boots — buy instead of make, or borrow.

EMERGENCY Every printed part has a buy option. Switching one part to bought can save a whole week.

ALWAYS The final week is for wearing it, not building it — dress rehearsal beats one more coat of paint.

🕒 THE HONEST RULE

If a piece is not started two weeks before the event, it is not in this year's costume. Build it for the next one.

PLAN + ORDER FILAMENT, DARK FABRIC, RED SABER
